Aim of Conference:

To give chance to students, to present their papers in the field of mechatronic engineering systems.

This is the 8th year from starting the Mechatronic Course at the Bánki Donát Faculty of Óbuda University in English language. During these 8 years a talented international student-team evolved, composed of students from most diverse nations.

This micro-conference gives great opportunity to students, active in mechatronic engineering, to get to know each other and improve their engineering's skills.

General Program:

Opening session: introduction of special guests-sponsors and guest lectures. The students present their papers in oral presentation in 10 -15 minutes +5 minutes discussion.

Approximately, after each 4-5th presentation a coffee break will be held for refreshing.
